Location & surrounding area:

Los Gigantes is a district of the municipality of Santiago del Teide, located west of Tenerife. The place is known for its touristic cliffs that provide its visitors by land and by sea a spectacular sight and which is named Acantilados de los Gigantes. The rocks fall at this point vertically up to 450 me-ters into the sea.

By land you can reach Los Gigantes on the coast road TF 47, Los Gigantes is situated one kilome-ter north of Puerto de Santiago on the way to Tamaimo. From the village you can reach the rock walls by foot to a small plateau, from which it offers the visitor a breathtaking view over the cliff. In the village, there is next to the small harbor also a small beach: the 200 meter long black and sandy "Playa de los Guíos", surrounded by several bars, souvenir shops and restaurants.

Another way to see the cliffs and get an even more spectacular impression of the cliff, is made from the sea. Several local companies offer boat trips on sailing, motor boats and catamarans to Los Gigantes. These tours are often combined with the observation of dolphins and pilot whales, which live just off the coast. A good starting point for those tours, for example, is the port of Los Cristianos.
