Details:

Move in and feel good! That could happen to you with this beautiful village house situated in the heart of Santa Maria.

It has been lovingly, tastefully, and very carefully renovated by its present owners, and stands on a plot of 162 sqm situated in a quiet side-street close to the market square. On the ground floor the entrance area leads to a technology room, a bathroom and the spacious living/dining/kitchen area where floor-to-ceiling windows allow ample natural light to enter and create a pleasant ambience. Large sliding terrace doors lead to the patio with its garden and terrace areas. A project exists for a small pool so this could be realised very quickly, if required.

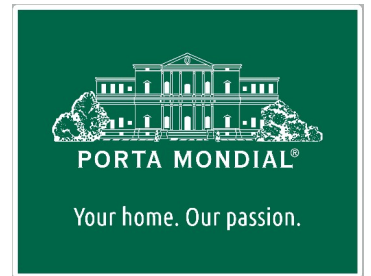

On the upper floor there are 4 bedrooms, one of which is currently used as an office, a bright bathroom, and a large terrace where, even in winter, hours of sunshine and views of the Tramuntana mountains can be enjoyed.

Further features of this lovely house include mains power and water, fibre-optic connection for speedy internet, and underfloor heating with heat pump.

If you would like to live quietly but also centrally, without the need for any renovation, then you should certainly not miss a viewing of this wonderful village house.
