### Details:

This hostel is situated in close proximity to the sea and already has a basic project for high-quality touristic apartments, the construction of which could begin immediately.

The building consists of 4 floors with a total of 7 individual living units designed for touristic rental, one of them being an outstanding penthouse.

On the ground floor is a spacious foyer, several guest WC's and personnel rooms and a kitchen with pizza oven.

Housed on the first floor is the reception area, luggage rooms, offices and guest WC's, and 2 apartments with approx. 22 - 27 sqm of living space. On every level there is a social room with integrated kitchen and a separate sun terrace for the use of guests.

There are 4 living units on the 2nd floor each with a small private balcony, and a large communal terrace.

The highlight is, however, the penthouse which is more than double the size of the other apartments with 57 sqm, and has 2 bedrooms and 2 bathrooms en suite, and its own kitchen with living and dining room. It also provides direct access to the pool on the roof terrace pool and to the sun terrace, both of which are part of the communal area.

All floors are easily accessible by elevator.

Truly the perfect investment property offering excellent returns in the future!
