Details:

This generously-sized property is situated close to the pleasant village of Ariany, and apart from breathtaking views over a large part of the island from the south to the north, offers a multitude of amenities. These include oil-fired central heating, an alarm, parquet floors, air conditioning in all rooms, double-glazed windows, mains power and water, and its own well.

Upon entering the plot attention is drawn to the very well-maintained exterior area with 2 large covered terraces, and the wonderful natural stone-clad walls and buildings. Upon reaching the terrace the 6.6 x 12.5 metre infinity pool with sun terrace, and the views of the Tramuntana mountains in the background capture the attention and inspire the onlooker.

Originally planned to consist of 2 living units, the first floor of the house has 2 fully-equipped kitchens, spacious living/dining areas with fireplace, and bedrooms and bathrooms.

An elegant staircase leads to the upper floor with a further 4 spacious bedrooms which share 2 bathrooms, and 2 master bedrooms with dressing area and en-suite bathrooms. Two of the bedrooms have access to large balconies which are ideal as relaxing retreats.

The 14.000 sqm plot of land is completely fenced, and the property perfectly fulfills the highest finca demands.

Location & surrounding area:

Ariany is a little rural village in the north of the island with about 800 inhabitants. In 1982 it was separated politically from the municipality of Petra. The surroundings of Ariany consist mainly of agriculture land.
