## Details:

This town-house is situated in the heart of Santanyi, only around 300 m and just a few minutes walk from the town centre and the popular market-square.

A construction permit (obra mayor) already exists allowing renovation and an extension of the 1st floor of the existing building, in addition to the construction of a pool, a BBQ zone with outdoor kitchen, and a further outbuilding. Work could be started very soon. In the expose the information regarding the constructed area refers to the completed project. The current property has a an area of approx. 330 sqm, plus a 40 sqm garage and a 20 sqm garden shed.

### Project description:

Planned on the first floor of the main house a garage with direct access to the house, an entrance area with guest WC, an open living/dining area with designer kitchen, a utility room, and a double bedroom with en-suite bathroom. Housed on the upper floor will be 2 further double bedrooms with bathrooms en suite, an additional living area with balcony and the master bedroom with dressing room and large bathroom with bathtub.

The garden is particularly large for a townhouse located in the centre of Santanyi, offering ample space for the pool and an adjoining, 50 sqm outdoor kitchen, and for the additional 50 sqm annex building to the rear of the property. This could be used as a fitness room, sauna and/or bedroom for guests or staff.

Orientated to the west from its longest side the 670 sqm plot is ideally located to enjoy many sunny hours in the garden and on the large pool terrace.

The purchase price includes the existing house including the approved project including all expenses already paid for the building permit, and the architects and interior designer costs. It does not include the cost of the planned construction and the project management.
