Details:

This old Mallorcan finca with its typical windmill was used as a small bar many years ago, and became the meeting point for the neighbourhood. Its entrance area is fitted with a bar-counter, and next to it the garage was used for dancing. The windmill can be seen from afar and has become a popular subject for photos.

Its constructed area of 720 sqm is distributed over the main house, the garage, a storage room, and large stalls which were used to house cattle and store potatoes. The safreig, originally a water cistern, could be converted into a pool during renovation. At one end of the plot is a large, semi-open storage building and this is the only building which can not be incorporated into the legalisation process.

The main house can be accessed via the bar or through the large, private entrance area which leads to 2 bedrooms and a bathroom on the ground floor, with a staircase leading up to 2 further bedrooms on the upper level, one of which has a large balcony.

With a certificate of habitability for up to 7 persons, the finca already fulfills the legal requirements to make the resurrection of your dream finca in Mallorca possible. In addition, the finca has a legal well and two connections to the public electricity of 220V and 380V.

Both Campos and Colonia St. Jordi are only 6 minutes drive away.

Please contact us for a personal viewing, and be convinced by the diverse restoration possibilities offered by this exceptional finca.
