Details:

The villa in Bonaire was built in 1979 and is situated on a generous plot of 600 sqm. The house itself offers an impressive constructed area of around 330 sqm, with around 250 sqm of pure living space spread over 2 floors.

On the first floor you will find a spacious, bright living area with an inviting fireplace. From here you can access a covered terrace that faces the street and offers a charming place to relax outdoors. The fitted kitchen is also on this level and gives access to the garden on the west side of the property, which is ideal for enjoying the evening sun.

Further on this floor you will also find 3 double bedrooms and 2 bathrooms. Hot/cold air conditioning units are installed in the rooms.

The upper floor houses the impressive master suite, which has its own fireplace and bathroom. From here you can access a private terrace where you can fully enjoy the views and tranquillity of this exclusive location.

In the basement of the villa there is a spacious garage with space for two cars and a practical laundry room.

It should be noted that renovation work is required to bring this villa back to its full glory. Nevertheless, it offers an extremely quiet location and complete privacy, making it a highly sought-after property in Bonaire.
