### Details:

This unique property, with an area of almost 50 hectares, is situated between Sant Llorenç des Cardassar and Artà and nestles in the hills of the Llevant area in the north-east of Mallorca. It offers absolute privacy together with the possibility to cultivate the land if desired.

The finca itself consists of diverse buildings with a total constructed area of 673 sqm positioned on the east side of the land. The main building with 206 sqm has been partly converted into a residential house, and is presently a mix of renovated rooms, and rustic rooms in their original condition. Next to the main house there are various old stone barns currently used for storage, but which could be adapted to suit the needs of the new owner.

The land surrounding the premises has been prepared for cultivation and planting, whilst the outer areas remain wild and untouched.

Without doubt this object presents a great opportunity to own one of the last properties with these attributes still existing in the north-east of Mallorca.
