Details:

Located in a quiet and sought-after area between Campos and Sa Ràpita, this exceptional property sits on a spacious plot of approximately 16,500 m². The single-storey bungalow combines modern design, maximum comfort, and energy-efficient technology.

With a constructed area of approx. 550 m² and a living space of around 300 m², the layout is harmoniously distributed on one level. The heart of the home is the light-filled living area with a stylish fireplace, seamlessly flowing into the spacious dining area. The modern kitchen, along with a separate utility room, meets the highest standards of functionality and comfort.

The property offers five comfortable bedrooms, each with its own en-suite bathroom. All bedrooms have direct access to the south-facing terrace, creating a strong connection to the outdoor living space. Additionally, there is a guest WC.

The entire house features a high-quality poured designer screed floor, combined with underfloor heating and air conditioning for year-round comfort.

A standout feature is the large swimming pool measuring approximately 5 x 18 meters, surrounded by multiple terraces facing north and south—perfect for enjoying both sun and shade throughout the day.

The property also impresses with its sustainability: a high-end 16 kW solar system ensures excellent energy efficiency, while hot water is also generated via solar energy.

The offer is completed by a covered carport for two vehicles, as well as additional outdoor parking spaces for up to five cars. An electric entrance gate provides both convenience and security.
