Details:

On the quiet outskirts of Campos, on a spacious plot of approx. 14,131 sqm, an exceptional finca property is being built that combines modern architecture, sustainable construction and Mediterranean elegance at the highest level. This project is aimed at discerning buyers who value privacy, quality and long-term value retention.

The planned residence extends over the basement, first floor and upper floor and offers approx. 210 sqm of living space. Spacious terraces, a covered porch, a stylish pergola of approx. 100 sqm in total and a 35 sqm swimming pool create an exclusive ambience for relaxed living under the Mallorcan sun.

The room concept impresses with its openness and clarity: a spacious living, dining and kitchen area with direct access to the terrace forms the heart of the house. Three comfortable bedrooms, 3 bathrooms with high-quality fittings, a separate dressing room and a garage in the basement guarantee maximum living comfort. On the upper floor, an additional sun terrace provides a private retreat with far-reaching views.

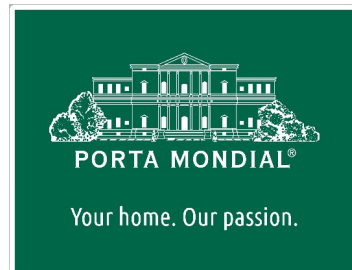

Generous window areas create flowing transitions between indoor and outdoor areas and allow the Mediterranean light to become the central design element. With a total development area of only approx. 303 sqm, an exceptional degree of spaciousness and closeness to nature is maintained.

This new-build finca is characterized by sustainable construction & technical excellence. Some highlights are: Highly insulated exterior walls in modern timber system construction with tested, healthy living materials, plastic windows with thermal break, triple insulating glazing, Controlled ventilation with heat recovery, Energy-efficient air-to-water heat pump with underfloor heating

A rare opportunity to create a high-quality home in harmony with nature - with German construction quality and a Mallorcan lifestyle.
