Details:

Located in a privileged frontline coastal position in Cala Llobards, this charming chalet offers stunning views over the Mediterranean Sea. The property sits on a plot of approximately 926 sqm and provides around 112 sqm of living space, complemented by a garage of about 40 sqm.

The house features 4 bedrooms, one bathroom with electric underfloor heating, and a cosy living room with a wood-burning stove. A warm-air distribution system ensures comfortable temperatures throughout the house, even during the cooler months.

A particular highlight is the spacious rooftop terrace, offering breathtaking panoramic sea views – the perfect place to relax and enjoy spectacular sunsets.

The Mediterranean-style garden, with cacti and native plants, creates a peaceful and private atmosphere. In addition, a green zone in front of the property ensures that the sea views remain permanently unobstructed.

The property also combines charm and history: the oldest part of the house is a natural stone building dating back to 1916, featuring thick stone walls and an open fireplace that adds authentic Mallorcan character.

The house is connected to the municipal water supply and also includes a 70,000-litre water cistern. Solar panels for hot water production complete the features.

A rare opportunity to acquire a frontline property on Mallorca's highly sought-after southeast coast.

Location & surrounding area:

The picturesque Cala Llombards is situated in the south of Majorca, close to Santanyí and the village of Llombards. You will also find the beaches Mondragó and Figuera very close, whereas Cala Llombards is the quietest of them, and one of the most beautiful beaches of the island. The village breathes peaceful tranquillity. To reach Santanyí you need about 5 minutes, there are the best shopping possibilities.
