Details:

This exclusive, newly built terraced villa combines modern living comfort with the unmistakable charm of traditional architecture - embedded in the historic ambience of Artà in the sought-after north-east of the island.

The elegant property extends over 2 levels and impresses with generous terrace areas as well as a private garden area of 49.76m² with optimal south orientation. Sun-drenched rooms and flowing transitions between indoor and outdoor areas create an atmosphere of lightness and Mediterranean quality of life. The ensemble is complemented by stylishly landscaped communal gardens with a pool.

On the first floor, you will find a spacious living and dining area with an open, well-equipped kitchen - a place that harmoniously combines design and functionality. Large windows open up views of the greenery and lead directly onto the terrace. An elegant guest bathroom completes this level.

The upper floor accommodates 3 comfortable double bedrooms and 2 tastefully designed bathrooms, including an en-suite solution in the master bedroom. This also has a dressing area and access to a private terrace - a perfect retreat.

A private garage parking space with direct access to the property provides additional convenience.

The fixtures and fittings meet the highest standards: excellent thermal and acoustic insulation to the latest standards, a fully equipped kitchen with high-quality Siemens electrical appliances, stylish bathrooms with floor-level showers and large-format porcelain tiles both indoors and outdoors. Underfloor heating throughout guarantees a pleasant living climate all year round.

Further features: communal pool, private garden, air conditioning, underfloor heating, aérothermal system, solar thermal panels, LED spotlights, double-glazed windows, pre-installation for electric vehicle, water and electricity saving in the communal areas

Estimated completion date: September 2026
