Details:

This pleasant property is located in Alcaufar, in the municipality of Sant Lluís, in the south-east of Menorca, an emblematic locality of the island that has preserved its authenticity by being protected from recent construction. A cove of transparent turquoise waters from which it's easy to set off on the famous Cami de Cavalls for a swim through the rocks, just 10 minutes from Sant Lluís.

The house has a total built surface area of 331m², including 191m² of living space, a 60 m² pool-terrace with pool-house, a 20m² garage and a total plot surface area of over 3,300 m² comprising 3 cadastral references.

The garden surrounding the house, perfectly maintained with automatic watering, is a real marvel with its many varieties of planting, giving in places a tropical atmosphere that provides shade and coolness, particularly pleasant in hot weather.

The house has its own energy source thanks to photovoltaic panels, and its own water supply from a private well. It has gas-fired central heating with radiators (large-capacity qaz tank) and air conditioning in all rooms. It is also equipped with a desalination system and an Osmosis system.

The pool is well sheltered from view, with a large terrace lined with dry stone walls and various Mediterranean plants, overlooking the surrounding forest.

The house comprises 2 porches, one on the pool side, 2 living rooms and a dining room all in a large open space, a separate fitted kitchen, a summer dining room, 3 bedrooms and 2 bathrooms, one en suite, numerous storage cupboards, a laundry room and a large garage.

This house is a great opportunity, a haven of peace and well-being just a few minutes' walk from Alcaufar beach, and well worth a visit. We look forward to hearing from you!
