Details:

In Santiago del Teide, located in the village of Arguayo, we present a unique house that surprisingly combines the modern with the traditional Canarian, impressing with its fantastic location.

If you are looking to be only 25 minutes drive from the various leisure centers in the south of Tenerife (Los Cristianos - Playa de las Americas) and at the same time enjoy beautiful panoramic views of the countryside, the mountains and the sea, while enjoying idyllic privacy and tranquility, this is the property you were looking for.

The property occupies about 700 sqm with a private driveway leading to the 2 car garage with additional storage space.

The interior of the house is divided into several rooms starting with the entrance with a beautiful tastefully decorated living room which, like the rest of the house, is very well lit.

The five bedrooms are located next, all with large windows and built-in closets made of quality wood and with very good finishing details. The master bedroom stands out with a large closet, en-suite bathroom with shower and bathtub plus a leisure space currently occupied by the gym area.

The magnificent dining room, next to the entrance area, is very well lit by the courtyard / interior garden that surrounds the rest of the house that also leads to the kitchen and laundry rooms and finally to the outdoor area that includes a cave, cellar and a large storage room.

For family gatherings this property has a barbecue area and terrace overlooking the mountain and the Teide and an outdoor bathroom.

Other elements to highlight include:

- The thermal insulation of the property in windows and walls
 - Air conditioning and heating
 - Access to the upper floor
 - Gable roofs
 - Solar panels
 - Microcement floors
 - Fruit trees surrounding the house and 700 sqm of land for future projects
- ... and much more.
