Details:

A beautiful plot of over 42,000 m², elevated at the foot of a hill range, offering breathtaking panoramic views across the Mallorcan countryside. The nearest beach, Cala Mencia, is located just a few kilometres away.

The building project has already been submitted and approval is expected by the end of 2026. The planned property will offer a total built area of 541 m², distributed over two floors plus a basement.

The basement will include an underground garage of approximately 73 m², a machine room of around 75 m², and a small hallway of 3.8 m². Together with the pool reservoir, the total built area of the basement will be approximately 208 m².

The ground floor will feature a spacious entrance hall, an open-plan kitchen with living and dining area, two double bedrooms with en-suite bathrooms, a studio, and a laundry room. The total constructed area of this level will be approximately 190 m², corresponding to around 146 m² of net living space.

The upper floor will accommodate two additional bedrooms, each with an en-suite bathroom and dressing area, with a total built area of approximately 69 m².

In addition, a separate annex of 72 m² is planned, comprising a gym, a bathroom, and a storage room.

The garden has been designed to blend harmoniously with the existing Mediterranean vegetation, creating an elegant, low-maintenance outdoor environment.

An excellent opportunity for investors!

There is also the possibility of acquiring additional plots in the immediate vicinity. The adjoining plot is available for €390,000.

Furthermore, another plot located higher up on the hillside can be purchased for €650,000. This exceptional property enjoys spectacular sea views.

This presents a rare opportunity to create an extraordinary private estate with maximum privacy or to develop several high-end real estate projects in one of Mallorca's most desirable locations.
